

1. Check for Required Items

Please make sure that all of these items were included in your ACN Video Phone box.

If an item is missing, please contact ACN Digital Technical Support at 1-888-414-1958 (1-866-913-3445 in Canada).

Main Unit

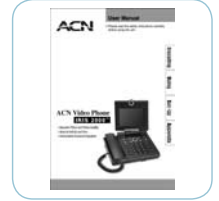

Handset

Power Adapter
(AC 110-240V)

One Ethernet Cable
(RJ-45)

User Manual

You should already have these components:

Computer with existing Ethernet cable

Router

Broadband Internet access

2. Install Your ACN Video Phone

1. Connect the handset to the jack located on the side of your ACN Video Phone.
2. Connect one end of the Ethernet cable (RJ-45), supplied with your ACN Video Phone, to the WAN port of the ACN Video Phone. Connect the other end to an open Ethernet port on your router.
3. Insure that your computer is connected to a remaining port on your router.
4. Connect the Power Adapter to the Power port and then plug the Power Adapter into an electrical outlet.
Note: Do not use Power Adapters from other Video Phones
5. Turn the Power Switch to ON on your ACN Video Phone.

You will see a series of set-up screens appear on your ACN Video Phone screen. Once you see the screen "Registration Success" you will see the register button on your Video Phone turn green, indicating your ACN Video Phone is ready to use.
